### Usage Instructions:

QLF L-CBF BOOST 4-0-3 + 2%S is a blended liquid fertilizer, which can also be used in combination with other liquid fertilizers. Typical application rates are 1 – 10 gallons per acre; with specific application rates based on crop and soil type. For information regarding specific application rates, application methods, and mixing and handling instructions, consult with your QLF L-CBF representative.

Always do a jar-test to determine compatibility with any other liquid fertilizer. This product is water miscible allowing it to be applied through properly designed liquid application equipment. If diluted with water use within 72 hours of mixing.
